Subject: Construction Bids – Ocean Reef Outfall Improvements

Staff and Preble-Rish Inc. (PRI) have been working to obtain permits for the proposed Ocean Reef Outfall Improvements. The proposed improvements consist of extending the existing outfall an additional 80 feet towards the Gulf and adding a Bay Saver upstream near Front Beach Road. These improvements will reduce erosion and the Bay Saver technology will separate debris and trap pollutants upstream before they make it to the beach. PRI is the City's engineering consultant for the project and completed all design and permitting necessary to bid the construction work.

The project was publically advertised and six (6) bidders responded with sealed bids by the required date and time. Bids were publically opened on February 2nd at 2:00 PM. After reviewing the bid documents, Preble-Rish Inc. recommends that the Base Bid be awarded to the lowest responsive bidder, I-C Contractors, Inc., for the base contract amount of \$136,592.87. The consultant's recommendation and bid tabulation are attached for review. Staff concurs with the award recommendation and further recommends approval by Council. A draft construction agreement is also attached for your review. The stormwater utility has sufficient funds available to enter into a contract for the work, and the project is included in the current fiscal year budget. All work is anticipated to be complete prior to May 1, 2016.
